

SKIN REJUVENATION | MUSCLE RECOVERY | LIPOLYSIS | HAIR REMOVAL | TATTOO REMOVAL

YOUR TRUSTED PARTNER IN MEDICAL AND AESTHETICS TECHNOLOGY

OUR STORY

VMS was founded by industry leader and engineer *Amaury J. Agoncillo* (30+ years of experience) with a clear purpose: to make quality medical technology more accessible, affordable, and supported.

Through his experience servicing medical equipment, Amaury saw the challenges customers faced—high purchase prices, limited manufacturer support, restricted access to parts, proprietary service codes, and expiring shot allowances. These barriers increased ownership costs and made long-term equipment operation difficult to sustain. He chose to build a better approach.

With service at its foundation, VMS provides fairly priced, engineer-vetted devices backed by quality assurance, practical training, and dependable technical support. Our commitment extends beyond the sale: we help customers protect their investment, operate with confidence, and build lasting success.

Dermalyser Face Skin Analysis

One-Stop Detection for
Aging | Sensitivity | Pigmentation | Skin Texture | Skin Tones

Our Face Skin Analysis gives comprehensive data reports including overall skin score, skin age, multidimensional AI analysis data on aging, sensitivity, etc. Providing data to support recommendations to subsequent skincare products and projects.

Four different spectra to detect the epidermis, dermis, and effectively reach deep skin conditions, while also uncovering potential skin issues.

Dermalyser supports both Windows and Android operating systems, and can easily select suitable operating devices according your needs.

Spectra	RGB light / Cross-polarized light	Pixel	20 Megapixels
	UV light / Parallel-polarized light	Supporting System	Android Windows
Lighting Technology	Solid state LED	Instrument Size	416 x 414 x 513mm
Camera Brand	Canon	Net Weight	10kg

REVO CO2

REVO is a powerful and effective machine used in the health and aesthetic industries for precise tissue removal, skin rejuvenation, and treating various medical and cosmetic concerns with remarkable results.

Visible results in just one treatment

Indications:

Skin Care:

- Reduces fine lines and wrinkles.
- Improves skin tone and texture

Vaginal Health:

- Vaginal Atrophy and dryness
- Strengthen vaginal wall
- Improves appearance of labia majora and minora

Surgical Cutting:

- Scar revision
- Removal of Skin Lesions
- Dermatologic Surgery
- Wound debridement

Onychomycosis:

- All types of onychomycosis

8 Operating Modes:

- Aesthetic
- Surgical
- Pelvic Health

Laser Wavelength	10,6000 nm	Pattern Shapes	Circle, ellipse, line, square, rectangle, hexagon, triangle and ring
Modes of Operation	Surgical, fractional, Pelvic(Vaginal)	Laser Power	60v
Display Size	11.5in	Voltage	110v - 220v 60Hz
Pulse Types	CW, SP, UP, VP		

IMPUL-X3

BBL+DPL +CONTACT COOLING

Advanced light-based therapies used in aesthetic treatments to address skin concerns like pigmentation, acne, and signs of aging by stimulating collagen production and improving skin tone and texture. **Includes 11 easy to change filters!**

Broadband Filters

- 515nm (515-950nm)**
 - Superficial Pigment, Acne Rosacea
- 560nm (560-950nm)**
 - Superficial Vessels, Superficial Pigment
- 590nm (590-950nm)**
 - Pigmentation, Anti-dullness, Whitening, anti-inflammatory, Anti-Redness
- 615nm (615-950nm)**
 - Skin Rejuvenation, Fade Fine Lines, Improve Skin Quality
- 640nm (640-950nm)**
 - Wrinkles, Shrinking Pores, Oil-Controlled, Anti-Inflammatory, Acne Tuberata
- 695nm (695-950nm)**
 - Skin Fine Lines, Shrinking Pores, Hair Removal

DPL Filters

- 500nm (500-600nm)**
 - Vascular Diseases such as telangiectasia, erythema after acne, facial flushing, nevus flammeus
- 550nm (550-650nm)**
 - Freckles, sunburn spots, senile spots & other pigmented diseases
- Acne (400-600 | 800-1200nm)**
 - Sebaceous Gland, Severe Acne
- Vascular (530-650 | 900-1200nm)**
 - Severe Deep & Superficial vascular lesions

Pulse Interval	1-3	Spot Size	14x38mm 388x10mm (Fractional)
Screen	Industrial capacitive touch screen	Handpiece	Broad Band Light and NEAR INFRARED FRACTIONAL
Voltage	AC110V, 60 HZ	Fluence	2-40 J/cm2
Power	3000W	Frequency	1-5Hz
Cooling System	TEC electronic, water cooling & air cooling	Pulse Width	1-1-30ms (1-15ms: step 0.5ms; 15-30ms: step 1ms)(
Working Temp	15 - 30 °C	Pulse Number	1-99 ms

Nouvere

Laser Skin Care + Hair Regrowth

The Nouvere is recognized for its gold standard dermatological treatments. It Improves skin texture, tone, and fine lines on the face, neck, chest, and hands. It has a significantly shorter healing time than (CO2) lasers. Nouvere offers safe and gentle treatments that rejuvenate and resurface skin.

Indications:

- Skin Resurfacing
- Pigmentation Removal
- Mid-level line removal
- Scar Removal
- Facial Rejuvenation
- Stimulate Hair Follicles

Features:

- Little to No Downtime**
Allows patients to quickly return to daily activities, making it a convenient option for those with busy schedules.
- Cryo-Shot**
Helps to cool and soothe the skin during treatment, reducing discomfort and minimizing redness, which enhances patient comfort and accelerates recovery.
- Non-Ablative**
Skin rejuvenation without damaging the surface, making them ideal for minimizing downtime and reducing risks of scarring or infection.
- Multi-Scanning Modes**
Multiple tips sizes shapes and modes to ensure you have the right fit for the right client.

Voltage	100-240VAC, 50/60Hz	Aiming Beam	<5mW
Screen size	10." Touch Screen	Wavelength	AccuTip (19x10mm)
Vacuum	>100Kpa	Scanning Area	GrowTip (10x20mm)
Scanning	7mm(sm)/ 15mm(lrg)	Graphic Patterns	EffiTip (20x20mm)

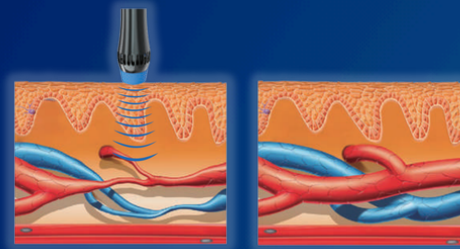

\$9,500

Shock Wave Therapy

HIGHLY EFFECTIVE PAIN TREATMENT

Shock wave therapy is new non-invasive solution for chronic musculoskeletal pain. The Extracorporeal Shockwave therapy is frequently used in physiotherapy, osteology and sports medicine. Applications are mostly associated with the treatment of chronic muscular and tendon disorders, back and cervical pain.

- Cavitations effect
- Stimulation of stem cells
- Increase of cell wall permeability
- Dissolving of calcified fibroblasts
- Reduction of unmyelinated nerves
- Energy release at acoustic boundaries

"Accelerated Healing with Acoustic Wave Therapy
High-intensity acoustic waves stimulate tissue repair by promoting neovascularization, reversing chronic inflammation, boosting collagen production, and dissolving calcium build-up. This creates an optimal healing environment, relieving pain and restoring function for a healthier, more active you!"

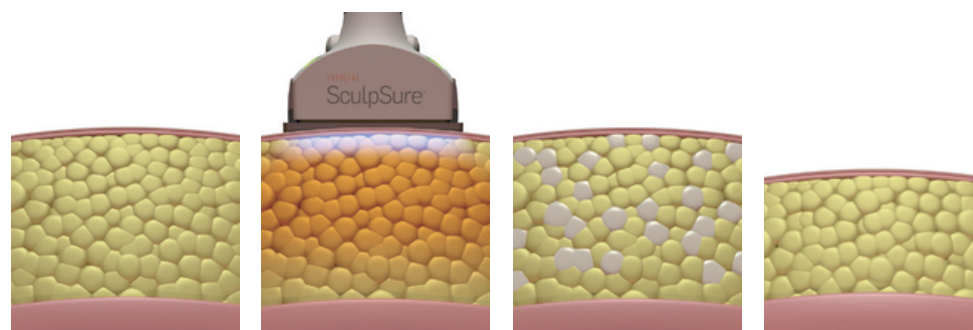

- Enhanced the dispersion of substance P
- Stimulation of microcirculation (blood, lymph)
- Stimulation of growth factors (neogenesis of vessels, bone, collagen)
- Release of nitric oxide (vasodilation, increased cell metabolism, anti-inflammatory effect)

Shock wave type	Electromagnetic	Handle cooling mode	Air cooling
Activation Mode:	Foot-switch	Power source	100-240 VAC 50/60Hz
Energy	60-210mJ (1-6 BAR)	Input power	350W
Frequency	1-16 Hz	handle lifespan	over 3,000,000 shocks
Working mode	Continuous	Therapeutic head	7 pcs

PowerSculp

1060NM Laser/Lipolysis Machine

PowerSculp stands out with its unique engineering design that elevates body contouring technology to the next level. Unlike conventional systems, it delivers laser energy through precision-engineered fibers, with each laser head positioned directly at the end of every applicator. This innovative approach ensures maximum energy reaches the target area, effectively reducing cellulite and enhancing the body's overall physique.

The laser targets and heats fat cells under the skin without affecting the skin surface.

Raises the temperature of fat cells, damaging their structural integrity. Contact Cooling™ stays on throughout the treatment, keeping the skin safe and comfortable.

The damaged fat cells are removed naturally from your body through your lymphatic system.

Once the fat cells are removed from your body, they cannot regrow.

FAT TREATMENTS

Model	PSP050-WM	Cooling System	Water cooling
Wavelength	1064nm	Power supply	AC100-240V/50-60Hz
Peak Power	50W	Input power	2.5KW
Spot Size	40mmx80mm	Dimension	550x920x1950mm
Power Density	0.4-1.7W/cm2	Weight	100kg

QS NEO Prime

350 Picosecond

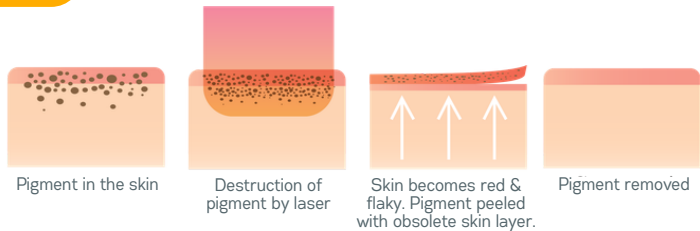

Tattoo Removal, Pigment, Hollywood Facial, Melasma

- 532 nm

Highly effective for addressing freckles, age spots, and other superficial skin concerns.
- 755 nm

Benign pigmentation—such as sunspots, freckles, and selected deeper pigment conditions,
- 1064 nm

Particularly well-suited for treating darker skin tones, providing highly effective results with minimal risk of side effects.

\$55,000

- Highly Effective
- No melanin precipitate
- Comfortable & Safe

Max Energy (J/cm2)	6.25 12.50	Power supply	AC100-125V, 60Hz

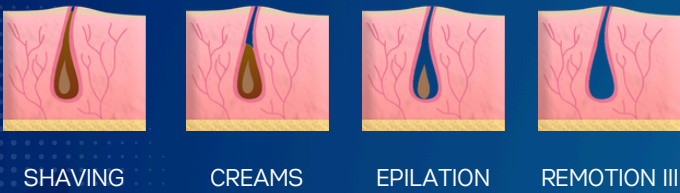

\$39,500

Remotion III

Fast Pain-Free Hair Removal

Remotion III's triple laser applies energy vertically, reaching different depths of the follicle that results in equal energy distribution. Using volumetric heating of the dermal tissue, Remotion III® drives the energy to penetrate deep into the hair bulb and papilla simultaneously avoiding melanin absorption in the epidermis.

- Features:
- Non ablative
 - Pain free
 - Little to no downtime
 - Large spot size
 - 10 Hertz faster
 - For all skin types

Voltage	100-240VAC, 50/60Hz	Aiming Beam	<5mW
Screen Size	10." Touch Screen	Wavelength	AccuTip (19x10mm)
Vacuum	>100Kpa	Scanning Area	GrowTip (10x20mm)
Scanning	7mm(sm)/ 15mm(lrg)	Graphic Patterns	EffiTip (20x20mm)

\$55,000

ThuliX

1927 nm (Thulium Doped Fiber)

Advanced Fractional Technology. Fairly Priced.
Bring skin renewal to your practice with the VMS Thulium 1927 nm Laser. **This water-targeting fractional platform addresses uneven pigmentation, sun damage, fine lines, and rough texture through controlled treatment of the skin's superficial layers.**

Adjustable parameters and versatile scanning options give providers the flexibility to personalize treatments—all at a fair price that makes advanced technology more accessible.

Adjustable parameters and versatile scanning options give providers the flexibility to personalize treatments—all at a fair price that makes advanced technology more accessible.

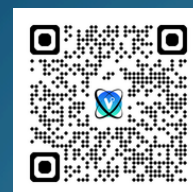

- Safe for Darker Skin Tone
- Superficial Pigment Specialist
- Minimal Downtime
- No consumables, fairly priced
